ROAD RAZOR
ECO
PRO TM

DRILLING | TRENCHING | ROAD REHABILITATION

The ultimate in road-milling is **ECO™ Pro**

Our unique body design and proprietary nonagon shaped washer delivers the road-rehabilitation industry's most ECONOMICAL and ECOLOGICAL results!

The new shape of productivity.

**WHEN TIME
IS MONEY,
SPEED
IS EVERYTHING**

Simply, we listened.

YOU demanded a road-milling tool that would **greatly reduce** your operating costs while delivering *ultimate performance*.

Presenting

RoadRazor ECO™ Pro

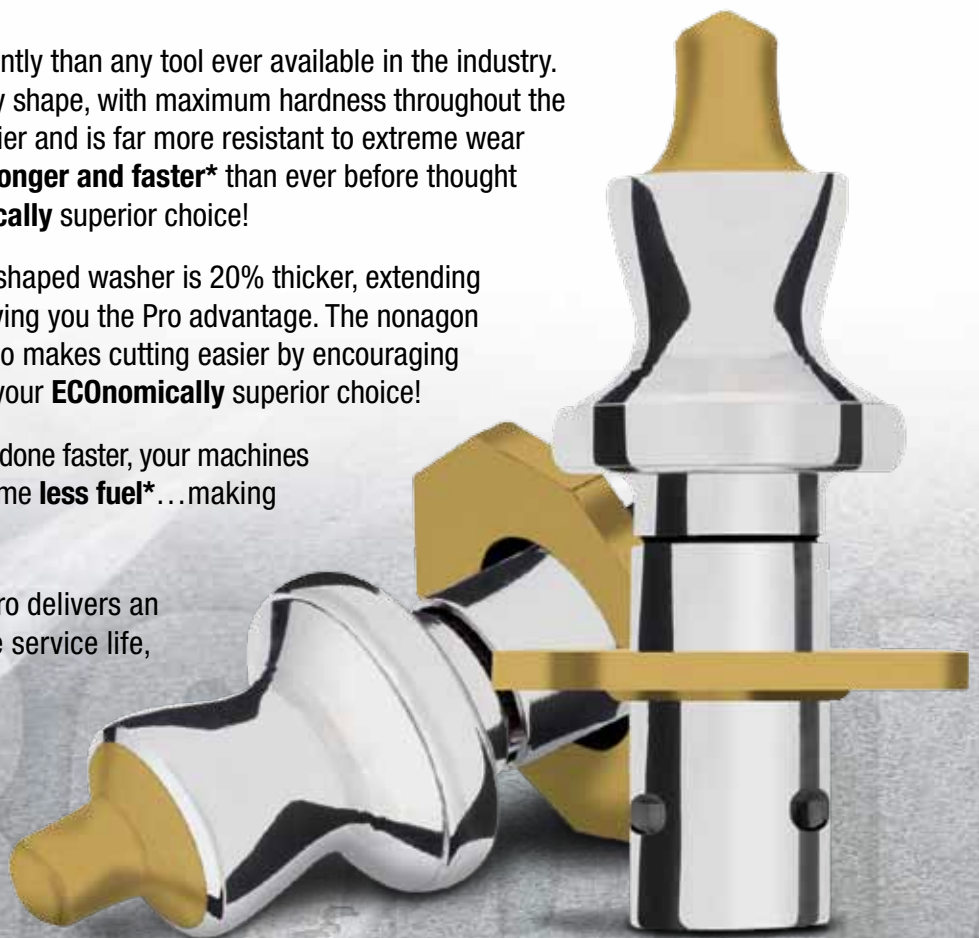

...the new *shape* of road-construction productivity!

Its design is different to work differently than any tool ever available in the industry. Its unique and sleek proprietary body shape, with maximum hardness throughout the entire head area, makes cutting easier and is far more resistant to extreme wear and friction — enabling you to run **longer and faster*** than ever before thought possible...making it your **ECOnomically** superior choice!

Its unique and proprietary nonagon shaped washer is 20% thicker, extending the life of the tool and the holder, giving you the Pro advantage. The nonagon design with overhanging corners also makes cutting easier by encouraging tool rotation...making it once again your **ECOnomically** superior choice!

Because you can now get your work done faster, your machines absorb far less abuse and can consume **less fuel***...making it your **ECOnomically** superior choice!

Bottom line: Our RoadRazor ECO™ Pro delivers an unmatched combination of ultimate service life, efficiency, and productivity!

*Field-proven using **YOUR** machines, in **YOUR** applications, and at **YOUR** job sites!

YOU choose which way to go...

**Go faster.
Run longer.
Save fuel.**

RoadRazor ECO™ Pro

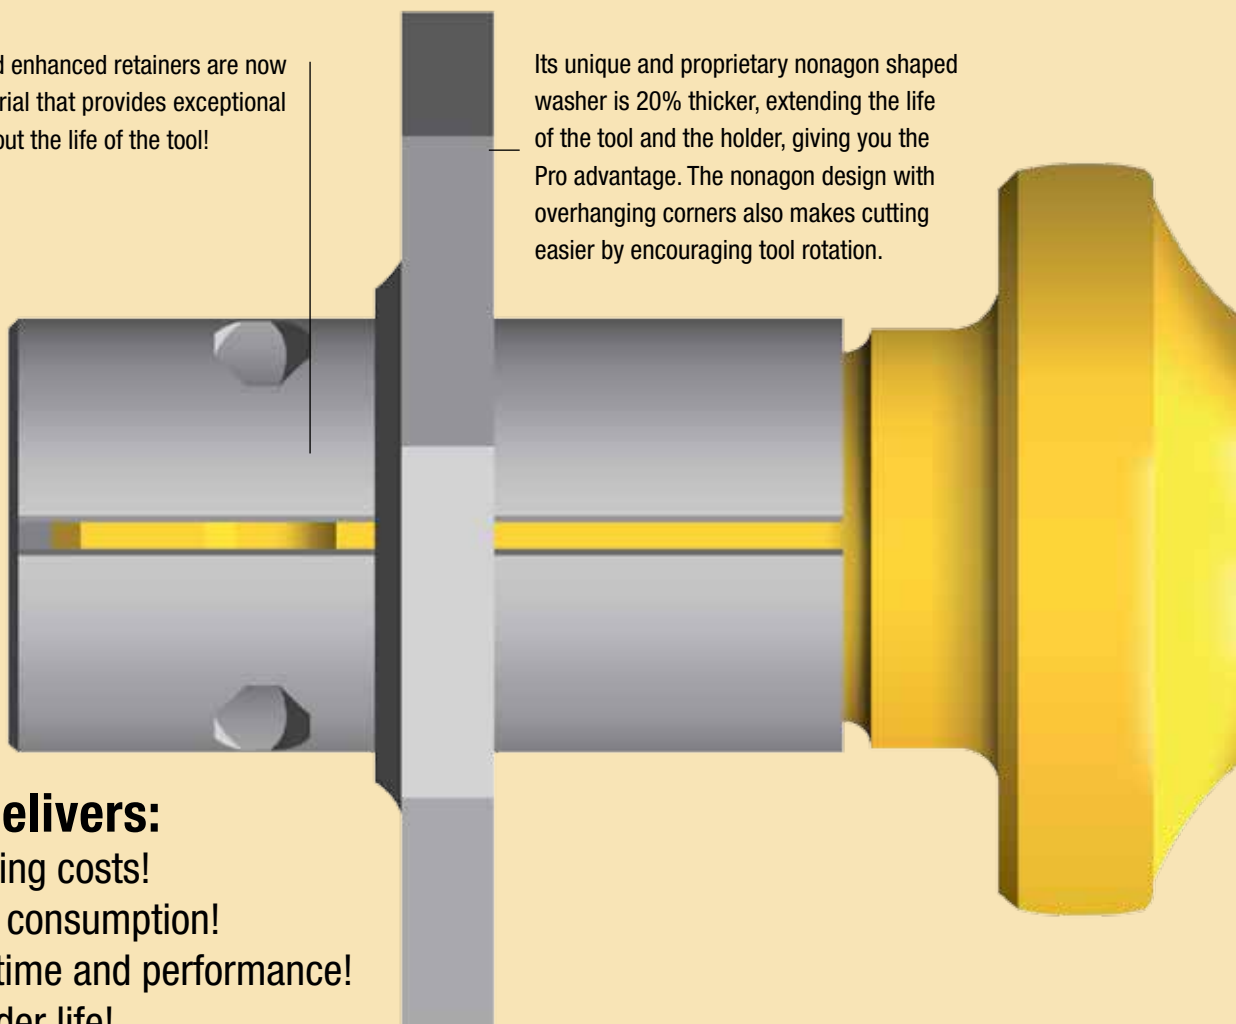

enables you to *optimize* your
road-construction operations!

The tool that works for YOU — and the environment

RoadRazor ECO™ Pro

Our newly designed and enhanced retainers are now made of a thicker material that provides exceptional fit and rotation throughout the life of the tool!

Its unique and proprietary nonagon shaped washer is 20% thicker, extending the life of the tool and the holder, giving you the Pro advantage. The nonagon design with overhanging corners also makes cutting easier by encouraging tool rotation.

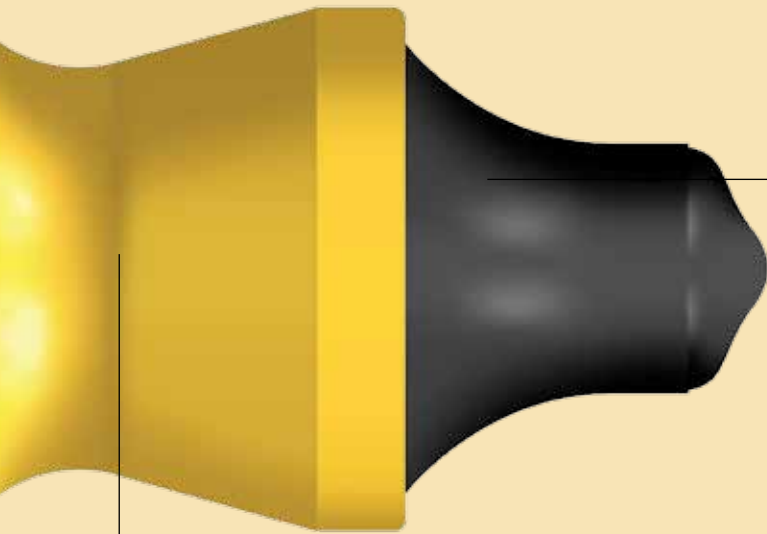

ECO™ Pro delivers:

- Lower operating costs!
- Reduced fuel consumption!
- Increased uptime and performance!
- Improved holder life!

Environment.

Now the industry's best carbide grades and proprietary point designs are even better — resulting in far less cracking and longer service life...no matter how abrasive your asphalt application!

Kennametal's unique and revolutionary shape — with maximum and consistent head hardness — yields unparalleled performance and service...so you can go faster, go longer, AND also have the option of using less horsepower (while still improving performance), thus reducing fuel consumption and machine emissions!
